

CAN CANDLE

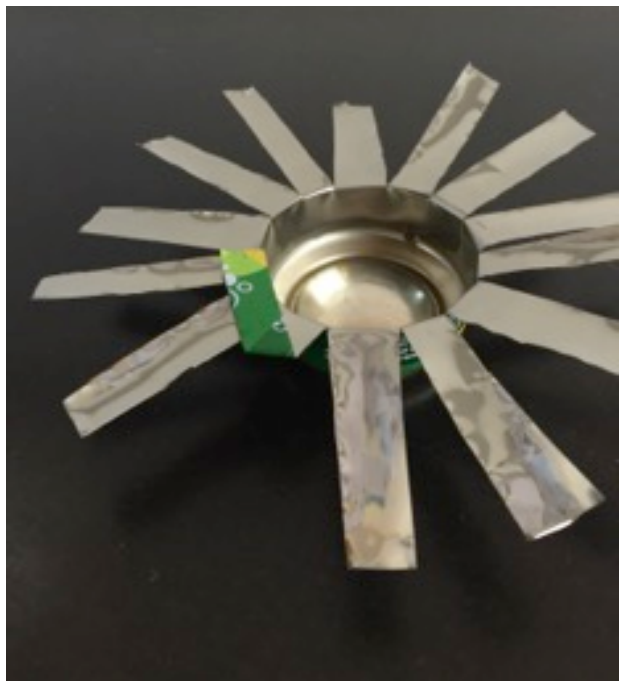

DIY “a homage to street artists”

Step 1:
Cut off the top of
a beverage can

Step 2:
Cut the can into
strips (about 1
cm large) leaving
a base of about
2,5 cm height.
Fold the stripes
horizontally to
the exterior

Step 3:
Start folding the
horizontal stripes
back so they are
placed parallel to
the opening

Step 4:
Repeat this until
all stripes are
folded.

Step 5.
Slide the ends of
the folded stripes
under the next
stripe and repeat
this until all of
the ends are fixed
underneath each
other.
You can use it as
a small bowl or
put a candle in
it.
